## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 2-24 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 24 recites a specific method of electronic textbook delivery, which includes a library database with the textbooks used in a school curriculum, a user profile with the textbooks for a predetermined academic period, the user does not directly pay, modifying the list of books based on the academic period, determining the validity, transmitting the book data from one computer to another, and finally displaying the desired textbook data at the user's computer. None of the prior art teaches the entire combination. Claims 2-23 are dependent upon claim 24.

Anders et al. is a NPL reference of interest, but lacks much of the details.

Vellandi is a foreign reference of interest, but also lacks much of the details.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
